

Bingo Math

Bingo: Be the first person to successfully get a row or line on the card.

Age Range: K to Grade 6

Number of Players: 2

Tools required: Each player needs 2 dice and 6 different colored counters.

Instructions:

Take turns throwing the dice. Use your numbers on the dice and your addition and subtraction skills to complete a row or line. If you can't make a number on the card give the dice to the next player.

The winner is the first person to get a row or line!

Variation: Use 3 dice to and use and combination of $+$ $-$ \times \div to make different numbers.
