

Connect 4 with a hundreds chart

Goal of the game: The first one to fill in four numbers in a row gets a point. The one with the most points by the time the chart is filled wins!

Game rules:

- You need 2 players
- Each player gets their own colour marker
- You have one blank hundred chart
- You can only put one number down at a time
- Think about where you put your numbers, you may have to block someone
- Your goal is to fill in 4 numbers in a row (in their correct spots) (horizontal, vertical or diagonal rows)
- Once someone gets four in a row, players switch colours and start a new round

How this game help with your math:

- Number patterns
- Counting
- Relationships between numbers
- Number knowledge
- Predicting

Try you knowledge:
