

NUMBER FACE OFF

How to Play:

1. You and your partner(s) will divide the deck of cards between the two of you. Remove any Jokers from the deck.

2. Between your partner and yourself you will flip over the top card from your deck to reveal the number on the card.

3. Whoever has the highest valued number wins the face off and will collect all cards flipped and place at the bottom of their deck.

4. If two or more people in the face off duals the same value card (e.g., a 3) then it's time for a Shown Down. A Show Down only happens if the equal numbers in the face off are the highest value of all cards flipped.

5. Shown Down → place down three cards and flip the third card. Whoever has the highest value card wins the Shown

Down and collects all cards

from the table.

“1, 2, 3, flip!”

Here's the Challenge:

1. You and your opponent will not only flip one card from the top of your deck but will flip two cards. Add these two cards' number values together and the sum will be your total.

The higher total wins that round.

2. For an even greater challenge, flip two cards and multiply the number values together. Highest

THE GAME
